PUBLISHERS' DEPARTMENT

SINCE THE PRESENT DECADE

calls for efficiency in every pursuit of life, so also does it have its calling among nurses, especially those who aspire to make a success of their profession. They, no doubt, often wonder how they could advance themselves, but, have they ever brought to mind after an irksome day's work, or heard, of the great success possible in aiding nature to restore health through such a medium called scientific Mechano-Therapy, such as, Massage, Gymnastics, Electro and Hydro-Therapy. An efficient knowledge in this recognized branch of medicine may be obtained through a course at the Penns. Orthopaedic Institute & School of Mechano-Therapy, Inc., 1709-1711 Green Street, Phila. An investigation may prove beneficial to you as it has to many others in the past with unceasing gratitude among the multitude of sufferers. May we send you one of our illustrated prospectus explaining our methods, etc.? New classes open November 19th, 1913, and January 7th and March 18th, 1914.

Max J. Walter, M.D., Supt.

"DIX-MAKE" 666 UNIFORMS

Thousands of nurses are now wearing "DIX-MAKE" 666 white uniforms, because they have found them to be trim, smart looking, well made and carefully finished garments. As they are made in all sizes and are cut along well proportioned lines, they are to be had to fit everyone and are giving every possible satisfaction. "DIX-MAKE" uniforms are ready for wear and fill a long felt need. Nurses are constantly expressing their pleasure in being able to buy them without trouble or delay and at such moderate prices. Good stores everywhere sell them in various models and materials, but model 666 is the most popular of all. Nurses are invited to give them a trial.
